Description

The Clockwork Play Panel is not literally clockwork, it is a mechanical cog panel with "hours" and "minutes" rotating discs that turn cogs that move the clock hour hand and the minute disc. This panel is a fun and interesting way to learn to tell the time or just to play with a mechanical mechanism with moving parts. All the cogs are safely covered by a shatterproof polycarbonate window. Bespoke design options are also available. All AMV Play Panels can be wall mounted or mounted onto posts fixed into the ground. Multiple panels can be installed side by side or back to back. Please ask for further details of the options available.
