Loop Corner

Product Code AMVOUT-LOOP-CORNER

Price on Application

Dimensions:

Length	1400 mm
Width	1400 mm
Height	400 mm

Key Stage:

EYFS KS1 KS2 KS3 KS4

Play Values

This product supports the following areas of child development.

Communication Skills

Description

Loop Corner is a new member of the Loop family. The 90-degree module combines with Loop Line to surround a ball court or a sandbox while also providing seating. Loop Corner is also designed for use as a number of differently shaped benches. For example 4 modules can be combined to create a square, while 3 Loop Arc modules form a circle.

The mould is sandblasted to provide a rough surface to enhance the friction and makes the surface comfortable and safe to use.

Material

Rotation moulded polyethylene

The material is suitable for recycling.

Fixing

The modules can be secured by Filling with water (160 litre) or sand (265 kg) or fastened to the ground with brackets. For multiple configurations the modules are joined with brackets at either end.
