Play Values

This product supports the following areas of child development.

Climbing

Co-Operative Play

Description

Chill out, lean back or play around on this fun element that can be associated with a ghost, an iceberg, a camel or even a fusion between an armchair, a seat, a backrest and an object for creative playing.

With its soft curves The Rock creates inviting and distinctive environments in parks, at beaches, on lawns, in playgrounds, and in urban areas.

When you stop to take a rest while trekking in the mountain, the ideal thing is to find a comfy rock to sit or lean on. How should the ideal rock be? The Rock is the answer.

Suitable for surface and ground fixation.

The Rock can be fixed to to ground in three ways: buried in 200mm depth, cast into concrete, or mounted with screws to the surface (8 pieces of M5 screws).

Materials

Molded in fiberglass reinforced polyester
