Play Values

This product supports the following areas of child development.

Strength

Climbing

Communication Skills

Description

Satellite is a new and challenging urban element that adapt the way children and young people are behaving in urban spaces. Relaxation and movement combined into a single piece of furniture.

Satellite can be setup in 4 different ways, which enables the user to sit in the cave, train parkour or use the ribs for climbing when the satellite is upright. An ideal lineup consists of 2-3 Satellites that create a special urban space.

Material

Rotation moulded polyethylene

Fixing

To be placed directly on the ground and filled 1/3 with water (400 liter) or sand (400 kg). In upright position the Satellite must be secured by surface or burial brackets â€“ to be ordred separately.
