Play Values

This product supports the following areas of child development.

Fine Motor Skills

Tactile Stimulation

Inclusive Play

Auditory Stimulation

Musical Play

Description

We have made some major improvements to our bongos, now both the bongo tubes and caps are made from extremely durable HDPE which is over 10x's more impact than our old versions. You can hit these bongos with a hammer and they will not break, which means the children can really bang out some tunes and you know they will be safe. The Eco-Bongo Tree has 3 different size and diameter bongo drums mounted around a central post. Easy to play, great sounding and very durable product. NEW T-Slot Aluminium Posts Virtuoso Music Instruments can be supplied with or without our new T-Slot aluminium posts. Finished in Slate Grey, the posts are ASTM and EN compliant and are finished with a post cap at the top. These new posts allow for multiple configurations due to the t-slots being positioned at 45 degree intervals.

Product Features

- NEW Ultra-durable bongo tops
- Great sound
- Easy to play without mallets
- ASTM Compliant
- Includes aluminium T-Slot post
