Key Stage:

Play Values

This product supports the following areas of child development.

Balancing

Stretching & Flexibility

Strength

Hand-eye Co-ordination

Gross Motor Skills

Climbing

Problem Solving

Co-Operative Play

Description

"Traversing" means to climb across rather than to climb up. This activity requires skill, strength and agility. The traverse walls have handholds and footholds which allow children to move along the wall. It provides a great way for children to exercise and is popular in the school playground. Traversing aids co-ordination and helps to develop upper body strength. Differing routes offer easy or difficult ways to travel stimulating the child to work out which route to take. Double traverse walls are a great way to get children active by being simple yet fun.
