Length	2995 mm
Width	100 mm
Height	300 mm

Key Stage:

EYFS KS1 KS2 KS3

Play Values

This product supports the following areas of child development.

Balancing

Gross Motor Skills

Description

Our Steel Balancing Beam is a low-level outdoor activity item which helps improve balance & coordination. It can be installed as a standalone piece of play apparatus or to link to other trim trail items in our range.

Children learn by having fun and, with AMV heavy duty vandal resistant products, you can be sure that they will do so for many years to come. The Trim Trail equipment is bright and colourful, with anti-slip surface and helps to improve balance, agility and co-ordination.

As with all AMV equipment, it is made in steel which dries quickly after the rain and won't split, distort or lose grip. Even better, unlike wood, it needs very little maintenance. Contact the team for our bespoke approach so your own ideas can be turned into a tailor-made trail.
