Width	400 mm
Height	300 mm

#### Key Stage:

### Play Values

This product supports the following areas of child development.

Balancing

Hand-eye  
Co-ordination

Gross Motor Skills

### Description

When children engage in physical activity, their senses are engaged, growing awareness and understanding. The trim-trails create an agility course that can be tailored to suit the age group, flooding the senses with a range of skills including balance, strength, climbing, stretching and co-ordination. They encourage inclusion and problem solving and are a good way to encourage exercise for those children who struggle to engage in team sports.
