

Roman Hopscotch

Product Code AMVF4-PM-004

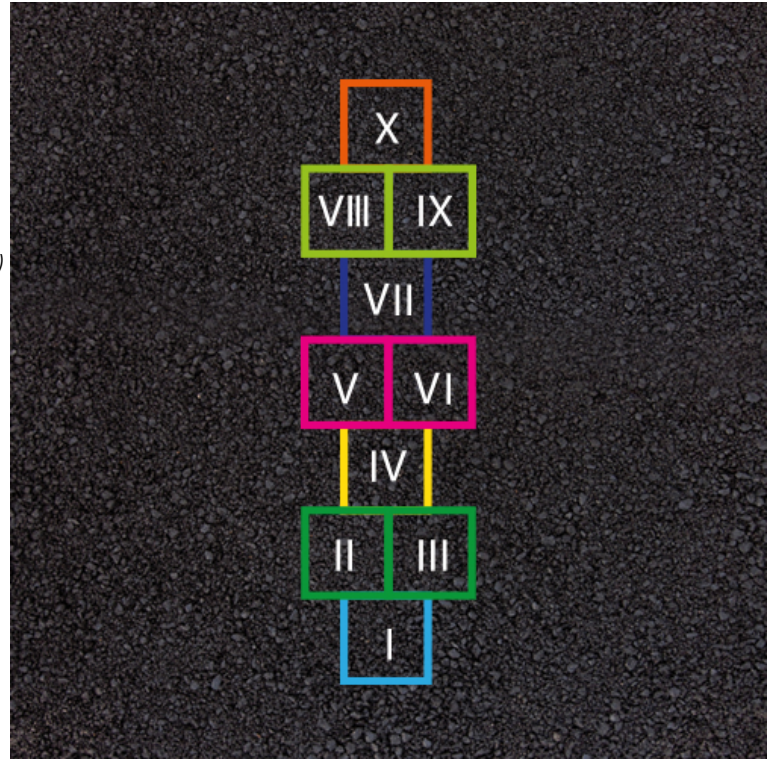

£175

Price includes installation (Min. order value Â£1,000 plus VAT applies)

Dimensions:

Length 2800 mm
Width 800 mm

Key Stage:

Play Values

This product supports the following areas of child development.

Jumping

Gross Motor Skills

Description

A variation of the traditional hopscotch game with roman numerals. A useful teaching aid for the new maths curriculum children learn how the Romans counted up to 10. Hopscotch is a traditional game, dating back to 1677 and thought to be used by the Romans to train their army with fitness and endurance. It has been known as Scotch Hobby, Hop Score and Peevers and pabats in Surrey. Hopscotch is a fun way for children to develop numeracy and counting skills as well as developing positive social play. The hopping and jumping is a great way to encourage exercise at playtimes and helps to develop fine motor skills and fitness.
