Description

The Fire Engine play panel is part of the emergency services range of imaginative play products. This PlayTronic version has many features that enhance the play experience, including a rotating steering wheel, rear view mirror and the addition of interactive sound effects, including siren, horn, engine start and radio communications. All AMV Play Panels can be wall mounted or mounted onto posts fixed into the ground. Multiple panels can installed side by side or back to back. Please ask for further details of the options available.
